

AIRNERGY+[®]
— S T R E A M —

FOR LOCAL PAIN TREATMENT

AIRNERGY Stream helps accelerate and improve self-healing and regeneration processes – for many different pain symptoms and complaints.

Use of AIRNERGY Stream is recommended to alleviate acute and chronic pain, for the treatment of minor injuries and even bone fractures, the treatment of eye and ear infections as well as slowly healing cuts and wounds.

AIRNERGY Stream's function is based on the latest findings from the tried and tested AIRNERGY energy therapy.

WE RESERVE THE RIGHT TO MAKE TECHNICAL CHANGES. INACCURACIES OR TYPOGRAPHICAL ERRORS DO NOT ENTITLE THE USER TO MAKE ANY CLAIM FOR COMPENSATION.

TECHNOLOGY: Energy that is familiar to your body is reproduced within the AIRNERGY Stream and this is then directed to ailing and under-nourished parts of your body. Your body's own protective and healing powers are stimulated and regulated locally.

APPLICATION: Radiate the parts of your body that are affected once or several times each day with the AIRNERGY Stream. To do this, simply place or hold the device on your skin or on top of the bandage.
Recommended application time: 3 times per day for up to 20 minutes on affected body parts.

Treatment with the AIRNERGY Stream is generally used to support the healing process. It does not replace a medical consultation to clarify the cause of chronic complaints nor treatment for serious, acute injuries.

AIRNERGY Stream can be used for:

- joint pains such as hip, knee, shoulder, elbow, toe, foot, finger and wrist pains and also for back pains.
- headaches and migraine.
- open wounds, bruises, sprains, inflammation, contusions, strains, and burns.
- inflammation of the middle ear and other ear infections, eye infections, sinusitis, toothache and jaw pains as well as skin problems, etc.

SHIPMENT INCLUDES:

- 1 AIRNERGY Stream power supply unit, spiral cable and instructions
- incl. transport case
[Case dimensions 315 x 210 cm (W x H) x 100 cm (D), weight (incl. case) 2 kg]
- incl. adapter for EU, USA, UK, AUS

TECHNICAL SPECIFICATIONS:

Power consumption: I_{max}: 250mA
Power supply: 12V DC
Power supply unit MPP15: 100-240V AC

WARRANTY: 24 months
